

**VOLUNTARY REMEDIATION PROGRAM  
DEPARTMENT OF ENVIRONMENTAL MANAGEMENT**

**PROJECT SUMMARY**

<b>Site Name:</b>	Reliance Electric
<b>Applicant's Name:</b>	Rockwell International
<b>Site Location:</b>	500 South Union Street Mishawaka St. Joseph County
<b>VRP Site Number:</b>	6990604
<b>Project Manager:</b>	Thoma Mattox
<b>Date Application Received:</b>	June 25, 1999
<b>Date Project Completed:</b>	July 30, 2001
<b>Project Duration:</b>	2 years, 1 months
<b>Contaminant Group(s):</b>	BTEX / PAH / MTBE
<b>Media Cleaned Up:</b>	Subsurface Soil / Groundwater
<b>Cleanup Goals Achieved:</b>	Tier II Non-Residential
<b>Deed/Land Use Restrictions:</b>	This property shall not be used for residential purposes

**Project Description:**

This site entered the VRP in June 1999. Prior to entering the VRP, the site had performed the removal of (5) fuel oil tanks and (1) diesel tank. In addition, the site excavated approximately 548 tons of petroleum impacted soil. To confirm this, the site completed a delineation assessment indicating that all the contaminants of concern (BTEX / MTBE / PAH) were below VRP Tier II Non-Residential limits. The site entered the VRP, and submitted this past assessment along with a Remediation Work Plan to be used for confirmatory sampling strategy. Subsurface soils were collected May 9-10, 2000 and groundwater sampling was performed quarterly between May 2000 and February 2001. All samples were below VRP Tier II Non-Residential limits.
